

# Chariots Of Fire

Raury

[Intro:]

Olé!

Oh! [x3]

[Verse 1:]

You think you're riding high

You condescend

You own the sky

Your chariots of fire

They melt the sun

They burn my eyes

I think the king should die

His followers

His servants, too

I'm done with being blind

I've seen the light

I've heard the truth

[Hook:]

Better sharpen your weapons tonight

Better sharpen your weapons tonight

Cause not even the strong will survive

No, not even the strong will survive

[x2]

Better run, better run for your life

Better run, better run for your life

Cause not even the strong will survive

No, not even the strong will survive

[x2]

[Verse 2 x2:]

I'm speeding down the highway, baby

I'm coming to set you free, little darling

I'm knocking at your front door, baby

I'm coming up your hallway, darling

[Verse 3:]

I, I've been living

I've been living my life on this road for too long

Too long

I, I've been giving

I've been giving my heart and my soul for too long

Oh lord

I, I've been living

I've been living my life on this road for too long

Oh lord

I, I've been giving

I've been giving my heart and my soul for too long

Oh lord!

[Hook]

[Outro:]

Not even the strong...
