

## Cigarette Song

Raury

I shared my cigarette with her, yeah  
I fucked her every Wednesday evening, evening  
Why do you always use that word, yeah  
When you don't even know its meaning, meaning?  
Well see I'll always be your friend  
Ill always be there when the sun sets, sun sets  
But we've been gifted with the end, yeah  
Who really wants to live forever, ever

But I can't love you right  
I can't love you, I won't love you  
But if you walk the line  
I'll provide it, I'll supply you  
But I can't love you right  
I can't love you, I won't love you  
But if you walk the line  
I'll provide it, I'll supply you  
With these cigarettes  
Light it up girl, have a ball, it's gonna kill you

I shared my cigarette with her, yeah  
I fucked her every Wednesday evening, evening  
Guess I'm an owl amongst the birds, yeah  
I won't remember what you tell me  
Girl tell me everything tonight, yeah  
I'll keep the secrets, you can tell me, it's easy  
I move in silence through the shade  
It's no surprise that he can't see me

But I can't love you right  
I can't love you, I won't love you  
But if you walk the line  
I'll provide it, I'll supply you  
And if you fuck me right  
You can say it, I might say it  
But don't you be surprised (don't cry)  
I'm only yours tonight  
That's only for tonight, I'm gon' be yours tonight
