

## Face To Face

Raven-Symoné

Boy don't be a mystery  
Cause I'd like to see  
How it'd be getting to know you  
Curiously watching you  
Knowing you're watching me  
Looks like you're good to get close to  
Don't know how it gets to me when I see you  
Think how good it could be I don't wanna keep you (keep you)  
Just wanna get face to face

Hand in hand, chest to chest  
Hold me round my waist  
Can you make me lose my breath  
Like we're running away  
Keep it going til' there's no one, nothing left in the place  
What you gotta do is just pursue it  
Let's get face to face

I wanna get close to you  
Why can't I approach you  
Cause I feel that it just wouldn't be right  
Holler like you're supposed to  
I know you want me don't you  
Can't keep wonderin' what it would be like  
A flame on a lighter (hot like fire)  
A track to a writer (all that I desire)  
Just wanna be face to face

Know let me break it down (down)  
Know we're gonna break it on down (we're gonna break it on down)  
Gotta come a little closer  
Let me show ya  
This how it's gonna get down (how it's gonna get down)  
Gotta hold me by my waist  
Bounce, step, put a dip in the pace  
Gotta go right to left, up and back  
Do it this way face to face

Up in this party  
You're across from me  
And the dance floor is there in between us  
You're stallin'  
Music's callin'  
Will you answer please  
And save this dance for me  
Let's dance face to face
