

# Keep Your Eye On The Ball

Raven-Symoné

It's time to step up to the plate  
Life through's you curves set them straight  
Gotta hold your ground don't let them make you fall (no)  
The most important thing of all  
Keep your eye on the ball (umm...)

I'm gonna tell you how it is  
Sometimes you hit sometimes you miss  
When you got your back up against the wall (ha ha)  
Never give up give it your all  
Keep your eye on the ball

You gotta keep steady and you gotta know  
When to hold on when to let go  
When your in the middle of a perfect play  
You gotta get out your own way  
It'll show ya how to win the game  
You gotta look before you take your aim  
You gotta trust the voice inside of you when it calls  
The most important thing of all  
Keep your eye on the ball

Cause when you give it everything  
You gotta give just one more swing  
Keep going on cause there's no time to stall  
The most important thing of all  
Keep your eye on the ball

You gotta keep steady and you gotta know  
When to go fast when to go slow  
When your in the middle of a perfect play  
You gotta get out your own way  
Just have a little patience and it all will come  
Know when to walk and when to run  
You can lead before you learn how to crawl  
The most important thing of all  
Keep your eye on the ball  
Keep your eye on the ball  
Keep your eye on the ball  
Keep your eye on the ball  
Yeah
