

# My Christmas Dream

Raven-Symoné

This is my Christmas dream  
That were walking in the snow  
When you put your hand in mine  
And you wouldn't let it go  
Suddenly you turned to me  
And your lips caressed my face  
As the snow was falling down  
I could feel your warm embrace

Baby this is why your my Christmas dream

This is my Christmas dream  
We placed a star atop our tree  
Then you turned and said you loved me  
So unexpectedly  
Like you were an angel singing  
Sweet songs into my ear  
Those tender words you said to me  
That's all I wanted to hear

Baby this is why your my Christmas dream

All Year long and all night through  
Every dream I've dreamed of you  
And I've prayed that when this Christmas came  
Your dream would be the same

This is my Christmas dream  
'Cause when you looked into my eyes  
And said you'd never leave my side  
I'll dream forever you'll be my lover  
More than just a friend  
I hope that when I wake up  
This Christmas dream will never end

Baby this is why your my Christmas dream  
Baby this is why your my Christmas dream
