Mystify

Give a little look with some attitude
Make em think about you
Show em with a stare
You can take it there

Leave a little guess
Make em curious
Who you really are now

Everything about you has a way of
Making everybody wanna know you more

Live the world, you should really really live the world

Picture in a pose
But they never know
Anything about you

Show em with a vibe
Take em on a ride

Little more intrigue
Little mystery
Gotta make em wonder

Everything about you has a way of
Making everybody wanna know your name
