

# Overloved

Raven-Symoné

I need to find somebody who can't sleep at night  
Without holding me without holding me tight  
I want someone who sees me all the time in their dreams  
And then wakes up thinking just of me  
Spent time on my own  
Spent time being free  
Now I just wanna be

Overloved  
Over needed  
Over wanted  
Over missed when I'm away  
Overloved  
Over dreamed of  
Over cared about  
Over everything  
I'd give anything to be overloved

I want someone who can't wait to kiss me again  
Even though it's been a minute since they last did  
Want someone who loves love songs  
And dedicates them to me  
And two loving arms never out of reach  
Been fine all alone  
Did fine being free  
This time I wanna be  
This time I wanna be

Overloved  
Over needed  
Over wanted  
Over missed when I'm away  
Overloved  
Over dreamed of  
Over cared about  
Over everything  
I'd give anything to be overloved

Want someone to talk to me with talk so sweet  
Want someone who's there to share their world with me  
I've been too lonely for too many nights  
This time I need someone here in my life  
This time I want someone holding me tight  
Been under kissed, under touched  
Now I just wanna be

Overloved  
Over needed  
Over wanted  
Over missed when I'm away  
Overloved  
Over dreamed of  
Over cared about  
Over everything  
I'd give anything to be overloved

I just wanna be

Overloved  
By someone who's over in love with me  
Overloved  
Over kissed over touched  
Oh I just wanna be overloved
