

Slow Down

Raven-Symoné

Slow down
You're not ready now
Slow down
You're not ready now

I know what's on your mind and you know it just ain't right
And I don't wanna see you ruin, ruin your life

See I know what you're going through
And I know what you wanna do
And I hope that I can help you change your mind cause you got nothing but ti
me

You better slow down
You're not ready now
You better slow down
You're not ready now
You better slow down

How can I make this clear to you
That it's just not the thing to do
And I hope that I can help you choose (choose)

You know that there's a wrong and right
So why don't you you make the choice and figure out
And I hope that I can help you change your mind cause you got nothing but ti
me

You better slow down
You're not ready now
You better slow down
You're not ready now
You better slow down

I know you thinking that you're ready, ready, ready (ready)
But just remember that you're still a young lady
Cause you got nothing but time on your side
Girl, you got the rest of your life

(Why you thinking that i'm tryna change your meal)
But this is something that I just gotta do
(And I hope I can change your mind)
Oh yeah, cause you've got nothing but time

You better slow it down cause you're not ready now (you're not ready now)
You better slow it down cause you're not ready now

No, you're not ready now, you better slow it down
No, you're not ready now, you better slow it down

I know what's on your mind you better (think about it, think about it)
You know it just ain't right you better (think about it, think about it)
Going through your life you better (think about it, think about it)
Before you pay the price, you better think twice

You better slow down
You better slow down

You better slow down
You better slow down, you're not ready now
You better slow down
You better slowdown, you're not ready now
You better slow down
