I'm into mental metal
My ears are well blown out
Still I'm prepared for madness
Just let me scream and shout

The system wants me to be Faceless, just work all day I won't turn into a machine I'm gonna have my say

No giving I'm taking
I've got nothing to lose
I'm leaving and breathing
It ain't bad news

Athletic rock
You know I'll never stop
Number one crazy athletic rock

The trucks they keep on moving On highways through the night From town to town they travel Delivering all this might

ROCK don't look back
All of your dreams have come true
ROCK make it last
All of your body screams out
ROCK don't stop now
More of the same but louder
ROCK on your feet
It it's the last thing that you do

No rules no regulations We're right out of control We'll blast apart your body And rip apart your soul
