

# Breaking You Down

Raven

Tunnel vision never seeing  
what lies behind  
no decision necessary  
they'll feed your mind

Why don't you open your eyes  
cos there's too much to see  
gotta cast away your chains  
set yourself free

Breaking you down  
turning you round  
taking you way underground  
breaking you down  
turning you round  
I'll turn it up until you can see it

Black & white is all you got no shades of grey  
if you step over the edge  
its gonna blow you away

Why don't you open your mind  
cos there's no turning back  
gotta cast away your chains  
listen to me

Breaking you down  
turning you round  
taking you way underground  
breaking you down  
turning you round  
pulling you under

Daily beloved  
we are gathered here today  
to celebrate the power  
the glory the truth  
of sheer volume

Breaking you down  
turning you round  
taking you way underground  
breaking you down  
turning you round
