

Double Talk

Raven

Nice to see you, I can't stand you
But we got big plans for you and there's more
We're excited, more like bored stiff
I can't wait till you're ready
to walk out the door

Play the game it's all the same
Buy you and sell you
You gotta play ball
I hear your words but I know what you say
So listen to me cos I know

Doubletalk - All I get from you
Double meaning but I can see
Double talk - take a walk
Or it's double trouble from me

Super project I got no respect
A dime a dozen you're our number one
On the guest list no way I'll miss
Out come the knives
just as soon as you're gone

Such a big shot thanks to daddy
Even rehab can't unchain your brain
Such a charmed life just don't cross me
Just keep your nose out
and you stay in your lane

Doubletalk - All I get from you
Double meaning but I can see
Double talk - take a walk
Or it's double trouble from me
