

# Fuel To The Fire

Raven

Running and running around  
Seems like my feet never touch the ground  
Over and over and then  
We got our backs to the wall again  
What you see is what you get  
Maybe you can survive  
But the long and the tall and the short of it  
Is keeping the drive alive

Come on - It's all or nothing  
Come on - You know what to do  
Fuel to the fire  
And the fire's burning you

Come on and turn up the noise  
I like the speed and I like the toys  
Reaching for more and more  
Breaking your face, break down the door  
You can bitch and you can scream  
Working the nine-to-five  
The only way that I can change my life  
Is keeping the drive alive

Come on - It's all or nothing  
Come on - You know what to do  
Fuel to the fire  
And the fire's burning you

Running to the future  
Got to keep a-moving, blaze the trail  
Find that holy grail  
You can bitch and you can scream  
Working the nine-to-five  
The only way that I can change my life  
Is keeping the drive alive

Come on - It's all or nothing  
Come on - You know what to do  
Fuel to the fire  
And the fire's burning you  
Come on - It's all or nothing  
Come on - You know what to do  
Fuel to the fire  
And the fire's burning you
