Get Your Motor Running

Don't need distractions I've had my fill Give me the gasoline powered Thrill of the kill Smell of burning rubber burning up the track Fighting for position Adrenalin attack

No better feeling burning in your soul Borderline insanity right out of control Pushing to the limit of machine and man Gonna give it everything -Everything I can

Get that motor running Foot down to the floor Push it even harder Til you can do no more Just get me on that road Screaming round the bend Get that motor running again

Got pole position I'm on the ball Ultimate velocity You know I'm standing tall

Holding on for dear life Up against the wall Gonna take no prisoners Hear my battle call

Get that motor running Foot down to the floor Push it even harder Til you can do no more Just get me on that road Screaming round the bend Get that motor running again Raven
