

Hell Patrol

Raven

Running - blinded in the night
Gotta pick my feet up off the ground
Keep out of sight and make no sound
I tried to tell them no right from the start
I`m a runaway a raging fury
A burning stallion with thunder in his heart

You can burn my body
You can tear my soul
Bend me with your torment
But still the answer`s
no no no no no no no!
You won`t get me on the hell patrol

Shadow maker - help me out
Got to find a place to hide tonight
A place that they won`t know about
The hell patrol won`t stop until they`ve won
You can run away a million times
Yet still the hidings just begun

You can burn my body
You can tear my soul
Bend me with your torment
But still the answer`s
no no no no no no no!
You won`t get me on the hell patrol

Running - blinded in the night
Gotta pick my feet up off the ground
Keep out of sight and make no sound
I tried to tell them no right from the start
I`m a runaway a raging fury
A burning stallion with thunder in his heart

You can burn my body
You can tear my soul
Bend me with your torment
But still the answer`s
no no no no no no no!
You won`t get me on the hell patrol
