

## Holy Grail

Raven

Do you know what you're doing think you  
Made the right move  
Don't you think you'd be better take rough with the smooth  
Do you know where you're going setting off on your own  
Don't you think it'd be easier staying inside the comfort zone  
I can feel it I can see it  
Know that I'll reach my holy grail  
No disguising no denying gonna reach out  
I'm gonna climb up the mountain  
I'm gonna reach for the sky  
Do you know what you're doing you've been here for so long  
Did you ever consider it was us that made you strong  
Hey you should be grateful we made you  
What you are today  
I don't know how could you stand up and walk away  
I'm gonna climb up the mountain  
I'm gonna reach for the sky  
I'm gonna stand on top of the world.
