

## Iron League

Raven

It makes no difference who you are  
You're gonna feel the same  
When the power's at its height  
Feel the energy - inside of your veins

You gotta have the will to win  
There ain't no way we're giving in  
You got to take it up to the extreme

Welcome to the iron league  
We will never rest  
The iron league, the iron league  
Take the muscle, put it to the test

We got the electricity  
Right before your eyes  
This ain't no game we're playing  
Take the challenge - cut it down to size

We're in our element at last  
Our colors nailed upon the mast  
We're gonna take it up to the extreme

Welcome to the iron league  
We will never rest  
The iron league, the iron league  
Take the muscle, put it to the test

There's no rules, no limit  
A battle zone and we're in it  
Got the urge to go over the top

Welcome to the iron league  
We will never rest  
The iron league, the iron league  
Take the muscle, put it to the ...

Welcome to the iron league  
We will never rest  
The iron league, the iron league  
Take the muscle, put it to the test
