

Last Ride

Raven

The gates are open and I'm on the street
Yeah I'm ready to fly
10 years burns you up inside
When it's caused by someone else's lie

Set the snare and bait the hook
The hunter lies in wait

It's the lasting impression
that I see upon your face
Where's the glowing reception
Aren't you ready for the race

It's the last ride
I'm gonna take you on the last ride

So much we got to talk about
It's been so very long
You locked the door
and broke the key
Destroyed the man that once was me

I've got so much to show you
So very much to give

It's the total deception
that put me into that place
Too late for redemption
Aren't you ready for the race

It's the last ride
I'm gonna take you for the last ride
Into your nightmare
Come on I'm gonna take you down

I've got so much to show you
So very much to give

It's the lasting impression
that I see upon your face
Where's the glowing reception
Aren't you ready for the race

It's the last ride
I'm gonna take you on the last ride
I'm gonna take you for the last ride
I'm gonna take you for the last ride
