

Seek And Destroy

Raven

The plans were laid, the sights were set
Slaughtered were the brave
The children died just where they stood
Chistened in their graves

Seek and destroy
Seek and destroy

Has God foreseen with aged eyes
A weapon far supreme
A holocaust to wipe the slate
And crush immortal dreams

Fire wind
Flash back
Mass attack
Wiped out

Weapon after weapon
After all that we've been through
Will we ever reach an end
You know it's up, it's up to you

The planet stands a monument
To all that lives and breaths
But what is war a tyranny
That evil men conceive
