

## Take It Away

Raven

Ever since I met you, been out of my mind  
Never was a bad boy, never unkind  
Might have been a hurricane once or twice  
Gonna shoot you right between the eyes

Run a million miles away  
That's not far enough  
Cause I'll come knockin' on your door  
Screaming murder  
I won't let them take it, take it away  
Never, never away from me  
I won't let them take it, take it away  
Enough is enough and I'm aiming for you

Maybe no money maybe no job  
Calling me a liar, calling me a slob  
No sense of security  
I want you do you want me?

First you push me up  
Then you drag me down  
I'm, I'm running blind  
Don't you know you're blowing up my mind
