

## Heaven and back

Ravenheart

We are heading out for life

Hell is full of pain  
And in heaven it's the same  
So you have no reason

What you wanna do  
Come and tell the truth  
It's the only way

In your mind you have a dream  
You're think so quietly, but you scream  
This dream of freedom is so true  
Feel the pain inside of you

We are heading for tomorrow  
We are heading out for life  
We will ride into the fire  
With an angel on our side

Hell is full of pain  
And in heaven it's the same  
Now you have a reason

What you wanna do  
It's a secret deep in you  
That's the only way

In your mind you have a dream  
You're think so quietly, but you scream  
This dream of freedom is so true  
Feel the pain inside of you

We are heading for tomorrow  
We are heading out for life  
We will ride into the fire  
With an angel on our side

We are heading for tomorrow  
We are heading out for life  
We will ride into the fire  
With an angel on our side
