

In memory

Ravenheart

You left too soon
Too young to die
You lost this fight
You never cried

In our heart
You live forever
Your ghost's alive
Still here with us

In our mind
You will stay forever
We realized
Only the good die young

Thanks for all the love you gave
We will never forget
There's a better place you are
We're so proud that we met you

This is our memory

When we look to the heaven
There's a shining star
Hoping you guide us
You're so close but so far

This is our memory
Lost for eternity
this is the most beautiful pain
Why aren't you here

Thinking all of you
You disappeared
Still we miss you
Memory

Now we stand at your grave
Fight against our tears
And all that we can say
We wish you were here
