

Valley of the damned

Ravenheart

Walking through the Valley of the Damned,
Feel the ghosts arrive,
Feel the cold wind behind our neck,
The armour shines so bright

Fight! Against the shadows of the night,
The Setvos on your side,
He will lead you through this fight,
Be on guard all night

Ride with the wind to the valley of pain,
Guards of creation drive us insane,
Ride with the wind to the valley again,
We can live forever our hearts are in chains

Marching through the Valley of the Damned,
The blood flows on our hands
We leave our fallen warriors behind,
Setvos on our side
The winter's off and the sun shines bright,
We're the guardians of the night,
The gates of heaven are so close in the Valley of the Damned

Ride through the wind to the Valley of pain
The guards of creation drive us insane,
Ride with the wind to the valley again
We can live forever our hearts are in chains

Ride through the wind to the Valley of pain
The guards of creation drive us insane,
Ride with the wind to the valley again
We can live forever our hearts are in chains

In the Valley of the Damned,
(On our guard!)

We lost our fears we are the brave,
In the Valley of the Damned,
(On our guard!)

We are fightin' till the end
In the Valley of the Damned,
(On our guard!)

We lost our fears we are the brave,
In the Valley of the Damned,
(On our guard!)

We are fightin' till the end
Till the end!
