

Feasting From The Womb

Ravenous

Take life before it begins
Abortion clinic a convent of sin
Attempting to puncture the soft spot orb
Terminate the brain before it can form

Tiny fingers claw
Embryonic tomb
Killing the host
Feasting from the womb

Vaginal suffering fetal stress

Umbilical cord severed
Taking first breath
Her stomach split open
Flatlining heart
Unwanted creation
A life torn apart

Tiny fingers claw
Embryonic tomb
Killing the host
Feasting from the womb
