

Opposing Force

Rawhead Rexx

Twilight shining bright
When he's coming out his eyes are open wide
An angel's face in this place
Is so unusual but it is beautiful

She feels like stone the moment she gets in touch
Mister nice guy's acting that so much

Darkness and coldness
Come slowly upon the end of life
With his fingertips on his lips
He smiles to her but he just lies to her

Kiss of death from lips that taste so sweet
Evil breath makes her fall asleep
