

Anger

Rawside

Proud of my race I am, my race's white, arian
just feel like the SA of modern day
Short hair and boots, next victim maybe you
a foreigner, a punk, a jew, that's the job I have to do

Leader just - just tell me
What to do - how to see
Leader it - it is you
To tell me - what to do

My leader's now the ruling one
our enemies are dead long gone
now I can feel the racism inside this system
My job was to eradicate, now I can feel all the hate
Now that my job is done, I will be the next one

Leader is - it was you
To tell me - what to do
Not needed - any more
The killed me - like others before
