

Never fall down

Rawside

False -friends telling you lies
no one helps you, pay the price
STOP THE MADNESS
in school we sat side by side
we were like brothers, every day every night
STOP THE MADNESS
you left me, I don't know why
You, not, a friend, friend of mine
STOP THE MADNESS

Down - Never fall down

Control your life, what drugs have done
good friends are gone for all this fun
stop this fake, united and strong
for you and me and everyone

drugs, a story of the scene and confusion
death and destruction and thousands of lies
remember yourself, your dreams , your future
don't believe in illusions of life
lose control, you're standing still
wake up before the drugs kill
STOP THE MADNESS
fucking friends, destroy your health
drugs disqualify yourself
STOP THE MADNESS
fast overkill, you go insane
you could stop, you're to blame
don't be controlled
be in control!
