

Ten years ago, we chose the way  
what we believe, the games we play  
came out of school, we had no job

the first money, will open some door  
the next deal, we want much more  
More girls, more drugs, more rock'n roll

comes the day, lost mind and heart  
no way back, for legal start  
that is real life, I go my way

Tattooed skin, the letters show  
fuck you all, punks not dead  
no future, no hope, FUCK NO WAY OUT!

Stop the next morning  
Stop now, today  
and where we go  
Don't stop this way

Stop mistakes warning  
Stop time to pay  
and where I go  
I don't stop my fucking way

All these years,  
we were walking down the streets  
for our causes, for our truth  
what we believe
