

Strange world

Rawside

What sort of a world is this
Discriminates the person by the colour of skin
People commit murder in the name of their gods
Taking a life means nothing more
Than going to work

What a strange world!
What a strange world!
What a strange world!

What sort of a world is this?
That feeds the human suffering
To make a profit
People make war in order to obtain - PEACE

What a strange world!
What a strange world!
What a strange world!

Man destroys everything
He has ever worked for
Money means more than freedom
Yes, what a strange world we live in...

What sort of a world is this
Discriminates the person by the colour of skin
People commit murder in the name of their gods
Taking a life means nothing more
Than going to work

What a strange world!
