

# All She Wants To Do Is Love Me

Ray Charles

Ohhh yeah!

Well she can cross the ocean in her private jet.  
She can have lunch in places people never been yet.  
She can go to parties with the Prince of Wales.  
Fly to Paris just to catch the sales

I can't explain it; she can have the whole world,  
But she's got her arms around me tight.

Well she can do anything, but all she wanna do is love me.  
And she can see anyone, but I'm the only one she sees.  
Well she can do anything, but all she wanna do is love me.  
And she can be what she wants, but she only wanna be with me.

She's got a loft in Soho and a house in Bel-Air.  
When she rides her Harley, people stop and stare.  
She only wears Versace when she's at the beach,  
I used to think that she was out of reach.

Must be an angel from the Heavens above  
But when she touches me it's finally real.

Well she can do anything, but all she wanna do is love me.  
And she can see anyone, but I'm the only one she sees.  
Well she can do anything, but all she wants to do is love me.  
And she can be what she wants, but she only wanna be with me.

I can't explain it; she can have the whole world,  
But she's got her arms around me tight.

Well she can do anything, but all she wanna do is love me.  
And she can see anyone, but I'm the only one she sees.  
Well she can do anything, but all she wanna do is love me.  
And she can be what she wants, but she only wanna be with me.

Well she can do anything, but all she wanna do is love me.  
And she can see anyone, but I'm the only one she sees.  
Well she can do anything, but all she wanna do is love me.  
And she can be what she wants, but she only wanna be with me.

Well she can do anything, but all she wanna do is love me.  
And she can see anyone, but I'm the only one she sees.  
Well she can do anything, but all she wanna do is love me.  
And she can be what she wants, but she only wanna be with me.
