

# Christmas In My Heart

Ray Charles

Winter nights, twinkling lights  
And snowflakes falling to the ground  
The air is filled with Christmas  
Santa's sleigh, kids at play  
It's that magic time of year  
When love is all around us  
And that magic seems  
To reach right out and touch me again  
Just like the years before  
It's Christmas in my heart

It seems that time stands still for Christmas  
It's time for laughter and cheer  
A time for giving to others  
And sharing our love with those we hold so dear

To soon the season's over  
As I face the New Year  
This wish I make oh yeah  
At every start, maybe Christmas  
Always Christmas in my heart

Seems that time stands still for Christmas  
It's time for laughter and cheer  
A time for giving to others  
And sharing our love with those we hold so dear

To soon the season's over  
And as I face the New Year  
This wish I make on every start  
Maybe Christmas  
Always Christmas in my heart

Oh, Oh, It's just Christmas in my heart  
Have a good time
