## **One More Time**

## **Ray Davies**

I was walking on the coast road When the harbour came in view It was there I saw the hilltop That I used to walk with you

We'd sing of the old country Now it's such a lonesome climb Our world faded once when you were mine

Why is true love so difficult to find Wish you were here to see it with me One more time Lalalala lalalala lalalala lala Wish you were here to sing it with me One more time

Those economic vultures Stole our dreams and told us tales Then they towed away our culture To their depot in south Wales

Corporations get the tax breaks While the city gets the crime The profit's going somewhere But it isn't yours or mine

Still we blindly trust in the divine Let's sing for the old country Come on, one more time Lalalala lalalala lalalala oh oh Let's sing it loud with feeling Come on, one more time

You know I must be leaving
And I know you've got to stay
But you know that I'll be grieving
When you're so far away

And if this should be the last time I should ever see your face
Let's part with no hard feeling
And a positive embrace

And I will speak well of you When they ask when you were mine Till then the jet stream up above Shows us the warning signs

Till we meet again bravely walk the line Let's sing it loud with feeling Come on, one more time Lalalala lalalala lalalala oh oh Let's sing for the old country Come on, one more, one more time
