

# Melody

Ray J

Yeah, Melody  
I just wish that I could hold you  
While you're slipping through my fingers, as I'm playing the piano,  
What is that sound it sounds so beautiful  
And I just wanna be close to you  
Close enough that I can feel you  
I'm already wondering where you are  
And it sounds like it's coming from my guitar.

Melody, said that I love you  
Melody, said that I adore you  
Melody, said that I need you  
You can call me foolish and i might be but I'm in love with a melody.

Donnie and Stevie they can write you  
Now you come humming in my write too  
As the music's playing in my radio  
I hear that sound it sounds so beautiful  
It makes me wanna just embrace you  
Your close enough that I can taste you  
I know just where you are caus your right here next to me.

[Chorus till the end]
