

Thank You

Ray J

I could be alone
I could be the poorest fool, who loved nobody
It's cuz of you I know
I can be strong
I'll get along, get along

You're the one I care about
When things are fallin'
What would I do without
I don't know..

Thank you for the good times
Thank you for the ups and downs with you
Glad it's you that's on my side
Any way it goes I thank you

Whenever you go (Oh yeah)
Keep trust in your heart
I'm right here with you baby
Just happy to know
You'll be around
You'll be around

Heart and soul I dedicate
Cuz I can't express what you mean to me
Together we make--
You make it alright
I'm the only one who can be there for you
No matter what is to come
You be there for me--

You're the one I care about
When things are fallin'
What would I do without
I don't know..
Heart and soul I dedicate
Cuz I can't express what you mean to me
Together we make-
You make it alright
I'm the only one who can be there for you
No matter what is to come
You be there for me-
