

Can I Stay

Ray LaMontagne

Can I stay here with you
Till the morning?
I am so far from home
And I feel a little stoned

Can I stay here with you
Till the morning?
There's nothing I want more
Than to wake up on your floor

Lay with me in your thinnest dress
Fill my heart with each caress
Between your blissful kisses
Whisper darling, is this love?

Can I stay here with you
Till the day break?
There's something you should know
I ain't got no place to go

Can I stay here with you
Till the day break?
How happy it would make me
To see your face when I awake

Lay with me in your thinnest dress
Fill my heart with each caress
Between your blissful kisses
Whisper darling, is this love?

Can I stay here with you
Through the nighttime?
I've fallen sad inside
And I need a place to hide

Can I stay, here with you
Through the nighttime?
I'm all alone and blue
Won't you take me to your room?

Lay with me in your thinnest dress
Fill my heart with each caress
Between your blissful kisses
Whisper darling, is this love?

Whisper to me, is this love?
