

# So Long Away

Ray LaMontagne

Sun was low and I awoke today  
Grass is high and brown and I am down and out and gray  
I am only saying that..  
I am only saying that..  
I am only saying I need you

Can we talk awhile something real?  
No more what to think  
Know what to feel  
I am only saying that..  
I am only saying that..  
I am only saying I need you

Lord, I've been so long away  
Long away  
So long  
Lord, I've been so long away  
Long away  
So long  
Oh Lord, I've been so long away  
So long away  
So long  
Yea, Lord, I've been so long away  
So long  
So long
