

Two Places At The Same Time

Ray Parker Jr.

Doo, doo, doo
Doo, doo, doo, doo, doo, doo, doo

First time I saw you, baby
I knew right away I wanted you for my lady
I had to rush right over to you (Rush to you)
And ask you if you felt the same way too

Now we've known each other many a night
And I want you to know my intentions are right
For making you my lady
The one and only lady in my life (In my life)

I wanna be two places at the same time
Inside you and inside your mind
Both of these ways I wanna love you
'Cause one without the other just won't do

I wanna be two places at the same time (Not one, but two)
Inside you and inside your mind
Both of these ways I wanna love you
'Cause one without the other just won't do

I'm so thankful that I found the woman
Who I can trust with all my lovin'
'Cause as a love affair goes on and on (On and on)
It takes more than good looks to keep the feeling strong

Personality is a must
'Cause I forget only you I will trust
With my heart, baby
Girl, I offer you my only heart (My only heart)

I wanna be two places at the same time
Inside you and inside your mind
Both of these ways I wanna love you
'Cause one without the other just won't do
No, girl, it just won't do, ow

Two places at the same time
(Can't be no other way 'cause I made up my mind)
You mean more than just fun to me
And that's the reason why I've got to be two places

Two places, same time (Two places)
Inside you, inside your mind
Both of these ways I wanna love you
'Cause one without the other just won't do

Two, two places at the same time (Not one, but two)
Inside you and inside your mind, ow
Both of these ways I wanna love you
