Across The Wide Missouri

Ray Price

My true love stands across the river far across the rolling riv er On the banks I hear her calling Away we're bound away across the wide Missouri Oh Shennandoah I long to see you far across the rolling river Shennandoah I'll not deceive you Away we're bound away across the wide Missouri

For seven years I've been a rover far across the rolling river I'll return and be your lover Away we're bound away across the wide Missouri
