

How Long Is Forever

Ray Price

I fell too hard and much too deep in love with you
I let you come and go at will, it seems
You're back again, this time you say forever
But I wonder just how long forever means

How long is forever this time?
How long until one night you don't come home again?
How long is forever this time ?
How long until I'm all alone again?

People say I'm foolish when I take you back
And it could be they're right but who can say
You'll be welcome here within my arms forever
Even when forever ends for me today

How long is forever this time?
How long until one night you don't come home again?
How long is forever this time ?
How long until I'm all alone again?
