

# I've Been There Before

Ray Price

Yes I know her very well cause I've been there before  
There's so much that I could tell cause I've been there before  
We lived we loved we laughed we cried you'll never know how much  
I tried till love died  
Now she's only yesterday well I'll go no more cause I've been there  
before  
Yes I've been there before
