

# I've Just Destroyed The World

Ray Price

The sun just went behind the clouds  
There's darkness all around me now  
For I've just destroyed the world I'm living in  
I broke her so many times  
And now at last I've broken mine  
I've just destroyed the world I'm living in.  
What made me think that I could go on hurting her  
I should have known there'd have to be an end  
But fools in love I thought by fate  
they never learn till it's too late  
And I've just destroyed the world I'm living in.

What made me think that I could go on hurting her  
I should have known there'd have to be an end  
But fools in love I thought by fate  
they never learn till it's too late  
And I've just destroyed the world I'm living in...
