

If It's All The Same to You

Ray Price

If it's all the same to you I'll be leaving in the morning
I'll be going to some different place it's all I know to do
I have thought the whole thing through and I can't feel the doubts a boring

And I'll be leaving in the morning if it's all the same to you

It's so hard to bear the thought you might be changin'
Especially that you want another man
But I've never been the kind to try arrangin'
Something that's just not in your plan

And if it's all the same to you I'll be leaving in the morning
Though my life will be an empty road and lonely without you
But don't spare me any feelings tell me what your thoughts are forming

And I'll be leaving in the morning if it's all the same to you

I have tried to give you hope and understanding
But there must be something you want that I don't have
If you've no need to take the treasure that I'm handing
Then I guess it's best we'd take a different path

And if it's all the same to you I'll be leaving in the morning
I can't make it on my own alright it seems the thing to do
So let's sit down and talk it over and you can take it as a warning

Cause I'll be leaving in the morning if it's all the same to you
