

## You Don't Love Me (But I'll Always Care)

Ray Price

Yesterday brought love as sweet as clover  
Every kiss was fresh as morning rain  
But today you told me it's over  
And my heart is burdened down with pain

Though it hurts me when you are so cold dear  
And you know our love's beyond repair  
Our love cheapen what was pure as gold dear  
You don't love me but I'll always care

Darling I am glad that I have known you  
Every sorrow that we have to share  
And in dreams I know I'll always own you  
You don't love me but I'll always care

Though it hurts me when you are so cold dear...
