

You Done Me Wrong

Ray Price

Well you tell me that you care
But now you're gone, you got me cryin'
No use denyin', you done me wrong

If I could look inside your heart
Then maybe I would know the reason
Why you are leavin' me all alone

Well you know it's not so
When you say it's right, you know you lie
I didn't do one wrong thing to you

Won't you tell me baby
Why you went and left me here so lonely?
I miss you only for I love you

If I ever make you sad
So you'd be mad and love to hurt me
And desert me for so long

Well you're telling everyone
What you done you think it's funny
Well listen honey you done me wrong

Well you know it's not so
When you say it's right, you know you lie
I didn't do one wrong thing to you

Won't you tell me baby
Why you went and left me here so lonely?
I miss you only for I love you

Well you know it's not so
When you say it's right, you know you lie
I didn't do one wrong thing to you

Won't you tell me baby
Why you went and left me here so lonely?
I miss you only for I love you
