

Feeling the kiss  
Enchanted by pain  
Burned by the touch  
Immortal by flame  
Out of control  
Released of the fear  
Tempted by thought  
Invoked by the fear

Painted with the eyes of gloom  
Glorified with fate and doom  
Masked behind the idol Christ  
Blackened thoughts beyond our sight

Injected with poison  
Craving for more  
Induced by the body  
Evening the score  
Wet by emotion  
Slippery in vain  
Joy in destruction  
Happiness in pain  
Sensitivity extreme with lust  
Accepting every inch  
Penetrate we must  
Eternal thoughts prevail  
Deep inside my head  
Driving beats through graves to dance among the dead.
