

Lust

Razed in Black

Take my lust, heat, love, pain
my sin, abuse, force, gain

Sick in your eyes
this is love
sensual heat
boiling blood
take the blade and
cut me deep
all's determined
watch me weep

I exist for copulation of your mind
dirty thoughts for deviation of truth and lies
I exist for confirmation of the beast inside
fantasies from realities with me you'll find

Lick my tongue, jewel, joy
drench my affection
rub
my inner thoughts
stimulate me
I crawl in desperation

Attack my beast, devour
rape me on request
fuel my desire
kiss every inch of my skin
fulfill the emptiness within

I exist for copulation of your mind
dirty thoughts for deviation of truth and lies
I exist for confirmation of the beast inside
fantasies from realities with me you'll find

Leave me obsessed
my fetish you are
let my sweat drip upon you
caressed
I'll take the blame
for my demise
didn't say you were gonna lead me
big surprise

I exist for copulation of your mind
dirty thoughts for deviation of truth and lies
I exist for confirmation of the beast inside
fantasies from realities with me you'll find

I exist for copulation of your mind
dirty thoughts for deviation of truth and lies
I exist for confirmation of the beast inside
fantasies from realities with me you'll find
