Lust

Razed in Black

Take my lust, heat, love, pain my sin, abuse, force, gain

Sick in your eyes
this is love
sensual heat
boiling blood
take the blade and
cut me deep
all's determined
watch me weep

I exist for copulation of your mind dirty thoughts for deviation of truth and lies I exist for confirmation of the beast inside fantasies from realities with me you'll find

Lick my tongue, jewel, joy drench my affection rub my inner thoughts stimulate me I crawl in desperation

Attack my beast, devour rape me on request fuel my desire kiss every inch of my skin fulfill the emptiness within

I exist for copulation of your mind dirty thoughts for deviation of truth and lies I exist for confirmation of the beast inside fantasies from realities with me you'll find

Leave me obsessed

my fetish you are
let my sweat drip upon you
caressed
I'll take the blame
for my demise
didn't say you were gonna lead me
big suprise

I exist for copulation of your mind dirty thoughts for deviation of truth and lies I exist for confirmation of the beast inside fantasies from realities with me you'll find

I exist for copulation of your mind dirty thoughts for deviation of truth and lies I exist for confirmation of the beast inside fantasies from realities with me you'll find
