

# Rebel Onslaught

Razor

We've built up our courage  
We won't be discouraged to fight  
We struggle for power  
Our armies devour the night  
They've tried to withstand  
But we'll gain command in the end  
A crumbling nation  
With mass devastation still stands  
We strive for the right of our nation's demise  
They've tricked and abused us and quoted us lies  
Nothing will stop us or get in our way  
'til Rebel Onslaught rules again  
The hunters are hunted  
Our foes are confronted at will  
We make our progression  
With headstrong obsession to kill  
They fed us confusion  
Provoked disillusion no more  
With devilish crimes  
They've rotted our minds to the core  
Put forth penetration  
Caused extermination and pain  
Thoughts of desire  
Take all of us higher again  
Our rivals conceited  
We won't be defeated 'til death  
Although we are shaken  
Won't give 'til we've taken last breath
