What you see's not what you get With you there's just no measurement No way to tell what's real from what isn't there Your eyes they sparkle That's all changed into lies that drop like acid rain You washed away the best of me You don't care You know you did it I'm gone To find someone to live for In this world There's no light at the end of the tunnel tonight Just a bridge that I gotta burn You're wrong If you think you can walk right through my door That is just so you Coming back when I've finally moved on I'm already gone Sometimes shattered Never open Nothing matters When you're broken That was me whenever I was with you Always ending Always over Back and forth, up and down like a rollercoaster I am breaking That habit Today You know you did it I'm gone To find someone to live for In this world There's no light at the end of the tunnel tonight Just a bridge that I gotta burn You're wrong If you think you can walk right through my door That is just so you Coming back when I've finally moved on I'm already gone There is nothing you can say Sorry doesn't cut it, babe Take the hint and walk away 'Cause I'm gone Doesn't matter what you do It's what you did that's hurting you All I needed was the truth Now I'm gone What you see's not what you get What you see's not what you get

You know you did it I'm gone

To find someone to live for
In this world
There's no light at the end of the tunnel tonight
Just a bridge that I gotta burn
You're wrong
If you think you can walk right through my door
That is just so you
Coming back when I've finally moved on
I'm already gone
