Catch Me When I Fall

Rea Garvey

Everybody needs to love somebody
Everybody needs to feel somebody close to you
Don't let go, don't slip away
I run for cover when the rules start changin'
Have another when the trust starts breakin'
Don't let go, don't let go, don't slip away

I heard you cryin gin your room
Can I make this right? I know I'm just a fool

Catch me when I fall
Catch me when I fall
I know it's not your fault you're leavin'
Oh oh oh

All the reasons, still I said I need you
All the reasons that I just can't leave you
Don't let go, don't slip away
This old wounds can heal in time
But I won't be here till you say you'll be mine

Catch me when I fall
Catch me when I fall
I know it's not your fault you're leavin'
Oh oh oh
