

# Colour Me In

Rea Garvey

Tell me  
What is a life?  
A life without colours  
Can you see them?  
Have the years made us blind?  
As a child  
Living life's imagination  
You'd close your eyes  
And all the colours went wild  
Now the outlines been drawn  
On an empty page  
And I've opened my eyes

And you you you  
You colour me in  
Turn me round when I'm wrong  
You make me strong  
You colour me in

Have you ever stopped and listen to your heartbeat?  
Did the tears make the colours start to fade?  
If all the wrongs we ever did were not forgiven  
Time would stop  
And the world would turn to grey  
You know I carry you with me  
Night and day  
Yeah you've opened my eyes

And you you you  
You colour me in  
Turn me round when I'm wrong  
You make me strong  
You colour me in  
Yeah you you you  
You colour me in  
You're the blue skies above  
You're so easy to love  
You colour me in

Pictures of angels  
Floating above  
We all need  
To be painted with love

And you you you  
You colour me in  
Turn me round when I'm wrong  
You make me strong  
You colour me in  
And you you you  
You colour me in  
You're the blue skies above  
Yeah you're so easy to love  
You colour me in

All right

Give me blue skies  
Give me the bright light  
I need some colour in my life (2x)

Give me blue skies  
Give me the bright light  
I want some colour in my life  
In my life
